Subject: [EXTERNAL] RE: PMN

Hi Susan,

I just faxed over the updated Health Report for P-18-132 to Rich. Rich, can you please share this with Susan?

Emad, the engineer for this case, returns to the office tomorrow, although it might help to have a few days' notice for a call. Are there specific questions you had that I can share beforehand? Greg Macek has also offered to continue to assist.

Some general times that might work: Thursday (8/30) before 10:30am, next week Tuesday 11am-2pm, Wednesday before 11am and 2-3:30pm, Thursday before 11am and after 2pm.

Susan, can you please also approve a suspension for P-18-165,166,167,190&191? The Day90s are coming up on September 3rd and 6th. These are in the queue for review by upper management.

Thanks!

Valerie

Subject: RE: PMN

Hi Valerie,

Perhaps we set a call for Monday when the engineer is back? Tomorrow and Friday is tough for us at Cabot.

Please let me know your team's availability? Also, do you have the updated health report to send us today?

Thanks and kind regards,
Susan

Hi Susan,

I'm glad the timing worked out for a call last week. I'm available for a call tomorrow after 3pm, or anytime Friday, although the engineer for this case will be back in the office next week and I'd like to fill him in as well. I can share the updated health report with you in the meantime.

Best regards,

Valerie

Subject: PMN

Hi Valerie,

We had a call with Bethany and Greg last week regarding air monitoring of the PMN substance. Bethany was going to follow-up with you to find out if EPA can share with us the details on the metabolite assessment/RAD point of departure, so that we can consider that information in our potential air sampling plan.

Please let me know if you can catch up with us on this, this week?

Thanks and kind regards,
Susan
